

Nurture for Today | Learning for Tomorrow | Character for Eternity

FROM OUR PRINCIPAL

Dear Carlisle Community,

I can not believe how quickly this term has gone by. In staff worship we recently read a story in John 12 where Mary anointed Jesus' feet. What's interesting here is that Jesus through His ministry was a giver, there are not too many stories where Jesus is the receiver. In this act of service, Mary gave her very best to Jesus even when she was ridiculed by those around her.

Mr Dale Skinner

I see many similarities of Mary's act in our own students. Each day I see students continuing to step up and give their best in many different circumstances.

It has been great watching our year 12's grow and mature over the years and now as their formal schooling at Carlisle comes to a close we wish them all the best as they study for exams.

There are a few staff changes with Mrs Liz Flodine and Mr Rob Flodine heading out west to support smaller disadvantaged communities and Mrs Nadine May as she does her final practicum. We wish them all the best with this.

Places are continuing to fill at the school and most grades for 2023 have a waiting list. If you know of families that are wanting to attend our College please ask them to contact the office as soon as possible. Especially as we welcome 2 prep classes in 2023.

May God bless you and keep you safe over the holiday break.

CYCLIC REVIEW

Mrs Isabelle Millien/Deputy Principal

On August 23rd, Carlisle welcomed Jean Carter, our Associate National Director, Jack Ryan, our Director of Education, Gary Masters, our Associate Director of Education, and Mark Hansen on site as part of our Quality Adventist Schools Cyclic Review. In order for us to be an accredited Australian Seventh-day Adventist School, we must participate in the Review process once every five years. We had different staff members, and also a parent and student report to the panel about our Adventist identity, our culture and our students and learning.

Here are the findings of the panel:

ADVENTIST IDENTITY

Adventist Identity at Carlisle Adventist College is foundational. The leadership team set a clear and intentional Christ-centered culture, and the visiting team were excited to hear how Adventist Identity is expressed not only in words but through actions. The college is committed to the Encounter Bible curriculum, and proud of their Adventist identity. There is a strong bond between the college and the local churches that is facilitated by the church pastors. There is also a core group of college staff who support the local churches leaving no doubt that Carlisle Adventist College is a ministry of the Seventh-day Adventist Church.

SCHOOL CULTURE

It is evident that Carlisle Adventist College has strong spiritual leadership that is also beginning to focus on building a united culture. As new leaders, they have willingly begun the process of developing a positive environment based on the shared values in their college. The emerging professional culture in the college will give the staff a chance to share ideas and build ownership. The college understands that they need to implement purposeful strategies to give greater role clarity to staff, to enable stronger staff empowerment and collaboration, and to focus on professional development and accountability. This journey is starting to build an inclusive culture that is beginning to reflect a whole school approach to school improvement.

STUDENT OUTCOMES

There are many wonderful things happening in the college that are creating a thriving place for students to flourish. The leaders of learning are working together to create a focused and united approach to student learning. They are also starting to implement a variety of strategies to address the identified gaps in programming and documentation. As a collective, Carlisle Adventist College is working hard to ensure that every student is given support to achieve and improve.

We are proud to announce that we passed our review and under the arrangements with the Adventist Accrediting Agency and the NSSAB, that Carlisle Adventist College is to be accredited for the period of five years until 2027.

FAREWELL- YOU WILL BE MISSED

It is with great sadness that we say goodbye to two of our Carlisle teachers, Mrs Liz Flodine and Mr Rob Flodine. They have both been a valued part of our College, being flexible in their roles, helping around the school and building community. They are planning on heading out to support people in remote communities. We pray God's richest blessings on this next adventure.

Mrs Nadine May will be away completing her final practicum during term 4. We wish her God's leading through this process.

WELCOME TO MR CASEY VOGEL

Mr Casey Vogel will be joining us in the Secondary next term. Here is what he had to say:

I am thrilled to be joining the teaching team at Carlisle Adventist College in Term 4! I started my teaching career in Victoria and slowly migrated through New South Wales, South Queensland and now reside in the Whitsundays. Skateboarding, reggae music and sailing, with my wife and daughter, are my favourite past time activities. A Bible verse I hold close to in the twenty first century is Proverbs 3:5, "Trust in the Lord with all of your heart and lean not on your own understanding." I cannot wait to meet you all.

MACKAY REGIONAL

The Mackay Regional church conference was held on our school grounds from 9-10th September. Regionals are an opportunity for the Adventist churches in the region to come and fellowship together. It's also an opportunity for anyone within our school community to join us for worship, regardless of their beliefs. Everyone is always welcome.

The event featured a Junior/Teens division and an Adults/Youth division. This years speakers were Pr Travis Townend with the teens and Pr Justin Lawman with the adults. Pr Townend started proceedings with a Friday night program 'Ignite'. This was a great moment for young teens to share pizza and also digest some spiritual food. Pr Townend encouraged the teens to "Taste and see that the Lord is good" Psalm 34:8

The Saturday program saw planned bible lessons for our juniors and in the adults division Pr Lawman told his powerful redemption story of being enticed by alcohol and partying as a youth, only to rediscover his love for Christ through a drunken encounter. He knew God was calling him back and has since gone on to provide that hope for others. A big thanks to all teachers and church members who helped to coordinate the days event.

CAKE AND BAKE AUCTION NIGHT

Last Saturday night we held a Cake and Bake Auction to help raise proceeds towards our Year 12 End of Year Service Trip to Tasmania. We would like to thank everyone who made the night a success. Whether it was baking a delicious cake or putting in an impressive bid we are deeply appreciative of everyone's support. We raised \$5,000 on the night. These funds will assist our students in the three service activities they have planned for the trip:

- 1) Minor maintenance of a place of worship for a congregation of elderly people.
- 2) Preparation and distribution of food to street people of Hobart – supporting a regular soup kitchen run.
- 3) Clean up of parts of a youth camp site that has been negatively impacted by COVID restriction and is trying to get things back to full functionality.

OUR FOOD TECHNOLOGY BUILDING WINS "MASTER BUILDERS AWARD"

Carlisle Adventist College - Food Technology & Multi Purposed Building
 (Master Builders Winner 2022 - Education Facilities up to \$10 million).

Fergus Builders were awarded the contract to construct the new Food Technology & Multi Purposed Building at Carlisle Adventist College, which also included a refurbishment and renovation of the existing Prep Classroom and Canteen. This project which was a two-story build with the upper floor level connecting to an adjacent two-story classroom via the suspended concrete walkway, also included a Clean Technology Room, Quiet Space for students as apart of the build.

We are incredibly proud of this project which was successful in winning the recent Master Builders Queensland Mackay & Whitsundays - Education Facility up to \$10 million award.

AVONDALE UNIVERSITY- SPECIAL OFFER 2023.

On Wednesday 14 September we had Mr Adrian Stiles from Avondale University come and present a special offer to our Graduating Year 12 class. Accompanying him was Bailey, a former student and school captain in 2020, currently studying and residing at Avondale University.

They came to share the good news that Avondale University is offering an amazing financial incentive for all 2023 new degree students. This includes:

- 1) Three Semesters FREE accommodation - Live on Campus and be immersed in the real Avondale University Experience.
- 2) FREE enrolment into the Avondale Character Experience Program. This program allows students to be part of a snow trip, camping, visits to sporting activities and learning from inspirational speakers (last year students attended Anh Do's stage show). ALL THIS FREE OF CHARGE.
- 3) If that's not enough. Any student wishing to study a Business degree will receive \$600 per subject cash rebate enabling them to have \$4,800 towards their fees in 2023.

This amazing offer is on behalf of the Avondale University Alliance Partnership's and the South Pacific Division.

BIG BIRD GIVES A SURPRISE VISIT TO PRIMARY

Our school recently took part in 'R U OK? Day.' This is a day where everyone is encouraged to look out for signs of mental health struggle in friends, family, and colleagues. It is hoped that by asking the question we can begin meaningful conversations that could change a life.

Adding to the excitement was a surprise visit from Big Bird! Big Bird was especially here to visit his friend, Mr Hokin (Year 8 teacher) but decided to drop by the prep, Year 1 and 2 class to see if everyone was OK. Our little ones squealed in delight as they received hugs and high fives from Big Bird. Everyone reassured Big Bird they were OK and he didn't lose any feathers in the process. Thanks for the visit Big Bird.

YEAR 1 SCIENCE

YEAR 1 GET A LESSON ON 'FIRE SAFETY'

YEAR 6 CONTINUE TO LOOK OUT FOR OUR YOUNGEST STUDENTS

The Year 6 students have connected with their Prep buddies to work on some reading and sentence writing, before taking them outside to play some games together. The buddy system has ensured that our Year 6 students are developing their leadership skills and setting a good example to follow.

The Prep class are continuing to challenge our Year 6 students outside of their comfort zone and we couldn't be more pleased. When we emphasise words like 'Carlisle community' and Christian education these are the types of values and traits we love to see embedded within our school. Well Done Year 6! for showing a willingness to help those around you and build each other up.

YEAR 3/4 CAMP SEAFORTH

Thriving ← → Christ-Centred ← → Community

YEAR 3/4 CAMP SEAFORTH

Thriving ← → Christ-Centred ← → Community

MIDDLE SCHOOL ENCOUNTER

The Years 5-8 class have been focusing on Growth Mindset in Chapel/Encounter. A key verse that students have been observing is Philippians 4:13 "I can do all things through Christ who strengthens me."

This past week, students had an activity where they were given a package that contained 30 parts of a picture. Each student replicated on a A4 piece of paper in a larger scale what they had on the small print out. All parts were coded to a grid. A select group of each class were required to put together individual parts that their class members had created into a large mural of the original.

A great team effort was put in by all classes. The teachers adjudged that the best representation was done by the Year 7 class.

BASETBALL GALA DAY

On Monday 5th September, some of our students in Years 3-6 competed at the Basketball Gala Day. This is a local sporting event for schools in the Mackay Region. Our school fielded a 'Rookie' and 'All-Stars' team. All the students played really well. There were a few really close games and a few where we led solidly from the front. Overall, it was a great day to be actively involved with our community.

CARLISLE'S WAY AWARDS

Community

Christ-Centred

Thriving

Mutsa Mufudza: For being respectful of others, striving to do her best, being an enthusiastic learner and always being on time.

This Vacation Care we will be looking at 1 Timothy and how we can have a Strong body in Christ

ROBOTICS CLUB 'DELIVERS'

The Wednesday afternoon Robotics Club have been experimenting with multiple motors and sensors throughout the term. One of the challenges set before them was to build a robot and program it to collect and a deliver a package.

The Year 7 group of Manny, William and Esaias won the challenge. If you would like to see a short clip of the robot in action then please check out our school Facebook page. All students are making significant progress and have been demonstrating a Growth Mindset. Keep up the awesomeness, Robotics Club!

SPARQ-ed

Students Performing Advanced Research QLD

A STEM EXPERIENCE FOR YEAR 8 AND 9 STUDENTS

SPARQ-ed are pleased to announce a new experience exclusive for Year 8 & 9 students, the "Junior Research Engagement Program"! This comprehensive 2 day program has been designed by our SPARQ-ed Team to introduce students to the amazing world of biomedical science and research. Our aim is to inspire these students to consider future subject choices and careers in STEM.

Across the 2 days, students will work as a team in a real research environment, using the latest technology and techniques to examine, test and analyse results. Students will gain hand-on lab experience in our state-of-the-art PC2 biomedical research laboratory and classroom located at the Translational Research Institute (TRI) in Woolloongabba.

Students in Years 8 & 9 from across Queensland are encouraged to apply, with regional students eligible to apply for a Lions Medical Research Foundation Scholarship to assist with costs associated with travel and/or accommodation.

SPARQ-ed

Students Performing Advanced Research QLD

Junior Research Engagement Program

1-2 December 2022

SPARQ-ed (pronounced spark-ed) is a biomedical educational facility for school students, established in collaboration between the Department of Education and The University of Queensland.

The SPARQ-ed Junior Research Engagement Program provides students with a unique opportunity to work alongside a dynamic group of scientists and like minded peers.

Our cutting edge facility features a fully equipped PC2 biomedical teaching laboratory and classroom located in the Translational Research Institute (TRI), Woollongabba.

At SPARQ-ed we aim to foster the development of aspiring students by providing unique and genuine research opportunities in biomedical education.

"I loved all aspects at SPARQ-ed, but absolutely enjoyed the more complex procedures such as cell removal from the well. Listening to the wonderful tutors and Dr Simpson's seminar on how genetics affect our skin, eye and hair color and theory behind the project. I truly felt like I contributed to something amazing!"

"At first i wasn't sure if this program was for me, as I was looking at STEM careers surrounding physics mostly. But now, I am definitely more interested in the biomedical side of things and would consider this as a career path now!"

Across the 2 days, you will work as a team in a real research environment, using the latest technology and techniques to examine, test and analyze your results. You will gain hands-on lab experience in our state-of-the-art PC2 biomedical research laboratory and research skills in our dedicated classroom.

Some previous research topics explored by SPARQ-ed students

Working with DNA - miniprep; DNA gel electrophoresis

Bacterial Transformation - colony picking and spreading; the role of green fluorescent protein (GFP) in Biomedical Science

Microdetectives - gram staining and biochemical tests on bacteria

Cell Biology - changing media on live cells and viewing under microscopes including FloiD

Proteins in Biomedicine - separating proteins from bacterial lysates using small chromatography columns; proteins and rapid staining

This program is open to Year 8 & 9 Queensland students who are considering their future subject choices in STEM. Regional Queensland students are eligible to apply for a SPARQ-ed Lions Medical Research Foundation Scholarship to assist with costs associated with travel. For more information on how to apply visit our website and contact our team for further advice.

CARLISLE TALENT

Congratulations to all of our Carlisle students who competed in the recent Presidents Cup Basketball Grand Finals. We are super proud of you all for pursuing your passion and representing yourselves and our school as Christ's ambassadors.

Atarangi Tarau and Lejla Bobongie-Harris (Both in Grade 4)

Mitchell Hollywood (Grade 3) and Carter Smith (Grade 3) with their Assistant coach Jordan Hollywood (Year 7)

Cheyenne Bobongie (Year 8)

Congratulations to Monique Bobongie (Year 10) who also received the MVP Award for the Souths Division 1 Women's team and also the Souths Division 1 Overall Player award at the Souths Basketball Club presentation evening. Its been an impressive 2022 for Monique, representing Australia at the Asia Cup (Champions) and FIBA U17 World Cup. The trophy cabinet must definitely be getting short of space. Enjoy all the accolades Monique! It's clearly a testament to how hard you are working.

Thriving ← Christ-Centred → Community

CARLISLE TALENT

Community

Christ-Centred

Thriving

Congratulations to Mitchell Hollywood and Carter Smith from Grade 3. They both recently played in their Magpies U10's Grand Final against the Renegades and had assistant coach Jordan Hollywood, from Year 7 in their corner. It was a nail biting finish. At full time the teams could not be split, however the Magpies gained control in overtime and ran out 16- 12 winners. Well done team!! Keep pushing for Gold.

Oliver Poots

Congratulations to the Poots brothers Oliver (Grade 6) and Oscar (Grade 4) who participated in the Mackay Music Eisteddfod and took out awards. Both placed in their respective age groups in Modern Pianoforte Solo, own choice sections. Oliver placed 2nd in the 11 year old's category and Oscar came 1st in the 9 year old's. A super effort boys! May God continue to bless you both and your musical abilities. Your Carlisle family is extremely proud.

Oscar Poots

LET US CELEBRATE YOUR CHILD!!!

We know that being a student at Carlisle Adventist College is an important facet of your child's life, and we also know that many students have interests, skills and talents away from school life. That is why we are calling on parents to share your child's accomplishments with us.

Whether your child is an aspiring athlete, a talented musician, a dance sensation, or just won a Noble Prize we think they're pretty special too and we would love to celebrate their success with you.

Please feel free to email and send photos to our Communications Officer at smillien@carlisle.qld.edu.au and we'll be sure to let the whole school community know how awesome your little one is.

MACKAY OZTAG SUMMER JUNIOR SEASON

Registration now open!!!

FREE come and try day September 21st & 28th

Souths Junior Rugby League Fields (25 Casey Avenue)

4:15pm - 5:15pm

Bring along a waterbottle, joggers/football boots and a friend

Summer Season

Kicking off October 5th - runs for 10 games

Ages u6 - u15 boys & girls

Registration \$11 membership, \$85 Rego, Official Oztag shorts \$25 or Tights \$35

Games played from 4pm on Wednesday's with the draws released the Sunday prior

Bring along your team (minimum 11 players), or bring a small group or just yourself and we can help find you a team.

No experience needed as our dedicated referee's are their to help along the way
ALL players receive a medal

WE ALSO ACCEPT FAIR PLAY VOUCHERS!!!

From Sustainable farming to self-driving cars, **Advanced Engineering & Robotics** model a range of real-world situations that teach students a complete understanding of how the technology works and used to solve the issue at hand. The engineering lessons engage kids with a hands-on learning environment and immerse them in the applications and possibilities of modern technologies. Through PBL (Project-based learning), students combine hardware, Lego® compatible building blocks, and coding to create a prototype and solve real-world problems. The projects are redesigned to encourage students to invent other viable solutions to these real-world issues and explore ways to utilize existing technology. The completion of these projects will boost confidence and create problem solving ability in students to overcome any challenge from working in their future jobs to solving our world's current or future problems. **All activities are adjusted to the student age and we tackle different challenges on each day.**

Limited spots available!
